### No-profit association

Casa Andrea Cristoforo association was founded almost 90 years ago. The health clinic has the mission to promote human health as a whole (body, soul and spirit) on the basis of anthroposophical medicine. We are a community which works night and day for each and every guest and we do all this with love and dedication. We are not profit-oriented, our prices are not enough to cover the structure costs and our work. We live thanks to donations by some friends of Casa and other very generous people, who have been part of our association for years. Would you like to contribute to ensure that Casa will continue existing for other 90 years?

You can make a donation after your permanence, so you can contribute to the fulfillment of our purpose too.
