### Meals (100% biodynamic and biological)

The prices are intended as a minimum contribution to the costs of our unique cuisine. We are the only house in Ticino with such a high standard in the selection of raw materials (100% biodynamic and biological). We cook with a maximum manual processing and attention to details.

Our cooking team lovingly prepares nutritious, healthy and balanced menus in biodynamic quality. We offer seasonal products and carefully select our suppliers. At lunchtime we spoil you with a 4-course menu and for dinner you can enjoy a 3-course menu. Diets are charged additionally according to expenditure with CHF 4.– / 7.– or 14.– per day.

### VAT exemption

The pension prices for guests with medical prescription are exempt from VAT and are only valid if, at least on arrival, a medical prescription for convalescent therapy is available.

### Insurance coverage

The doctors and physiotherapy's invoices are directly sent to the Health Insurance Company and are covered by the basic health insurance. All others services will be invoiced on site. Please check in advance with your Health Insurance Company, which services you can be reimbursed for. A cure stay of at least two weeks is recommended.

### No-profit association

Casa Andrea Cristoforo association was founded almost 90 years ago. The health clinic has the mission to promote human health as a whole (body, soul and spirit) on the basis of anthroposophical medicine. We are a community which works night and day for each and every guest and we do all this with love and dedication. We are not profit-oriented, our prices are not enough to cover the structure costs and our work. We live thanks to donations by some friends of Casa and other very generous people, who have been part of our association for years. Would you like to contribute to ensure that Casa will continue existing for other 90 years? You can make a donation after your permanence, so you can contribute to the fulfillment of our purpose too.
